Please submit a specific discussion outlining the individual's role in advocating a safety program, as well as its significance and importance in striving to eliminate fatalities and serious injuries on our nation's local roadways. Additional information, other than that shown below, may be submitted for consideration and is encouraged.

1. Discussion of the nominee's application or involvement in safety programs, policies, practices or infrastructure that improve the safety of our highway and local road system.
2. Highway safety partners know that their individual efforts are effective when they collaborate with each other, join forces to attack a particular problem or problem spot from multiple directions, and take advantage of each other's experiences and knowledge. Discuss the nominee's efforts to build local, regional, state or national partnerships to improve safety performance while striving to eliminate fatalities and serious injuries on our highways and local road systems.
3. Discussion of the nominee's dedication to raise awareness of safety initiatives and how they will benefit the public.
4. Leadership or service on local, state or national road safety committees or organizations.
