National Issues: Re-Authorization of Federal Surface Transportation Legislation

Streamlining Permitting
Infrastructure Legislation

Ideas/concerns to share with other NACE Members: _____

It is amazing how much the world and our Nation and States have changes in the past few months. We now have a new normal, and we are all considered essential personnel.

As we start to recover as Counties, States, and a Country, we will all be faced with challenges.

As a Group we are stronger than we are individually, and our State and National Organizations will assist as we help guide the recovery.

I could not have imagined writing the above in January 2020.

Stay safe and wash your hands!

Report Submitted by: (Name) Scott Herring

(Title) Public Works Director/County Engineer Hernando County Florida
and NACE Director for Florida

Date: 4/17/2020

Note: Expand written report if desired; please keep oral report at conference to a minimum.
