Issues and topics of particular importance for which action and efforts of State Association were directed during the year:

State Issues: Bridge and Highway Advocacy Efforts, Local Design Services Agreement Consultant Selection, Participated in Bridge NY Project Application ranking process, Local Road Safety Plan Initiatives, Provided PDH Training to members and affiliates

Issues and topics of particular importance for which action and efforts of State Association were directed during the year (CONTINUED):

National Issues: The chairperson of the NACE Safety and technology Committee is from NY. Efforts were made to promote safety on a national basis, both for Local Road Safety Planning and Safety Education. We worked with the Rural Center for Roadway Safety to develop a national safety training program which will be rolled out this year.

Ideas/concerns to share with other NACE Members: We need to continue to promote safety efforts, but also need to promote a new federal infrastructure funding bill.

Report Submitted by: (Name) Andrew P. Avery, P.E., Chemung County
